

BEN BAGLEY

MULTIMEDIA ARTIST

ABOUT ME

I am a multimedia artist with interests in basically everything. Turns out all that time I spent playing on Photoshop instead of doing my math homework wasn't such a bad idea after all. I'm very passionate about films, music, arts, and all things creative. I thrive in a collaborative environment with like-minded folks and I'm always ready for the next brain-storm. Let's make something.
